Qik Heat Ice Melting Crystals will outperform Untreated Salt because of its special enhanced treatment of high quality Magnesium Chloride and All Natural agricultural Corn by-product. Qik Heat Ice Melting Crystals activates quickly but will allow long term ice melting performance because of its special formulation.

Qik Heat Ice Melting Crystals is an affordable way to completely remove all ice on your walkway along with continued ice buildup to provide complete safety.

Milazzo Industries has again developed a product to further enhance our complete line of high performance and quality ice melting agents. Dynamic Performance truly does come to us Naturally by offering more choices without compromising quality or safety.

Immediate Melting Action for Super Fast Results

Use Less & Get Better-Faster Results
