- 20lb, 50lb poly bags

Milazzo Industries, Inc., your complete source for a full line of snow and ice control products, is proud to offer Sure Grip with Traction Control Ice Melt, a product that offers both safety and security for our price sensitive customer.

Sure Grip with Traction Control Ice Melt was specially formulated to provide instant ice melting action along with the additional benefit of traction for added safety. One of Sure Grip with Traction Control Ice Melt's components is Calcium Chloride, the proven leader in melting action. Calcium Chloride acts as a catalyst, activating the other components of this enhanced blend. Along with quick activation, it also has "exothermic" properties, or heat generating action.

Sure Grip with Traction Control Ice Melt is an affordable way to prevent ice formation. To keep walkways clear in the worst of storms, Sure Grip with Traction Control Ice Melt should be spread prior to snowfall to make shoveling easier. Sure Grip will continue to work below 0° F.

Along with melting ice and snow and providing desired traction, it makes your walkway ice free and safe; Milazzo Industries has fortified Sure Grip with Traction Control Ice

Melt with a special soil enhancer to provide lush green lawns when the winter season is complete.

Choose the ice melt that is backed by a company that prides itself on its high quality products, with a focus on customer satisfaction, service, and most importantly safety.

Choose Sure Grip Ice Melt with Traction Control, a product that not only melts ice, but provides added safety and security.
